Summary of Qualifications

I am a dedicated and versatile full stack developer with a passion for creating efficient and user-friendly web applications. With 6 years of professional experience, I have worked with a variety of technologies, including Ruby, Ruby on Rails, React, MySQL, PostgreSQL, Docker, Swagger and Rspec. My journey in web development began with a deep curiosity for how things work, and it has evolved into a career where I continuously strive to learn and adapt to new challenges. I thrive in collaborative environments and enjoy solving complex problems to deliver high-quality solutions. Outside of coding, I enjoy staying active, exploring new technologies, and contributing to open-source projects.

Hard Skills

Programming languages and markup
Ruby, TypeScript, GraphQL, SCSS, HAML, Slim

Databases and search
PostgreSQL, MySQL, ElasticSearch, Active Storage

CI/CD and code quality
GitLab CI/CD, Jenkins, Rubocop, ESLint, CodeRabbit, Snyk

Monitoring and performance
Rollbar, New Relic APM, Prosopite

Frameworks and libraries
Ruby on Rails, Hotwire, Turbo, Stimulus, React.js, React Native, Redux, Tailwind, Bootstrap, Sidekiq, GoodJob, Devise, CanCanCan, ActiveAdmin, Ransack, PaperTrail, AASM, Sorbet

Infrastructure and DevOps
Docker, Kubernetes, Heroku, OrbStack, Kafka, GRPC, Node.js, Vite

Testing and API tools
Rspec, Minitest, VCR, Swagger, OpenAPI, Postman, Newman, Bruno, Insomnia, Allure Report

Collaboration and tools
Jira, Azure DevOps, Confluence, Slack, Notion, Figma, Claude Code, Codex, Copilot

Soft Skills

- Problem solving
- Teamwork
- Adaptability
- Responsibility
- Empathy

Experience

Backend / Full Stack Developer January 2026 - October 2026
RedBridge

Owning the Incidents domain end-to-end in a Rails monolith, from the data model to the production rollout. Built a new incident engine with an operational analytics dashboard, an auto-trigger rule engine and a two-phase migration of legacy data, performance and stability fixes driven by Rollbar. Also contributed to the companion React Native application for drivers.

Technologies: Ruby 4.0, Ruby on Rails 8.1, PostgreSQL 17, Hotwire, Turbo, Stimulus, Vite, Node.js 20.2.0, React Native, Expo, TypeScript, Rollbar, Notion, Slack, Claude Code, Codex, Mailjet, Heroku, Kubernetes, Bruno, Allure Report, GitHub Issues/Projects, Supabase

Ruby on Rails Developer July 2025 - December 2025
Swan Software Solutions, Inc.

Developing new functionality and improving existing functionality with two teams collaboration (the Swan team (7-11) and the customer team (5-10)).

Technologies: Ruby 3.4.2, Ruby on Rails 7.2, PostgreSQL 17.6, GraphQL, Docker, Heroku, Copilot, Insomnia, CodeRabbit, New Relic APM, Jira, Circle CI, Notion, Roam, SWAN Intranet

Full Stack Developer July 2024 - June 2025
ClubReady Inc.

Developing new and improving existing functionality using Ruby, Ruby on Rails, Postgres, Go. We worked on SCRUM methodology with a team of 12-17 people.

Technologies: Ruby 3.4.4, Ruby on Rails 8.0, PostgreSQL, Docker, OrbStack, Jira, Azure DevOps, Deal, Rollbar, Sidekiq, parallel, Benchmark, APIpie, Shakapacker

Full Stack Developer (freelance) April 2024 - May 2024
CodeElves Inc.

Developing and improving web applications using Ruby, Ruby on Rails, and React/Redux. Implemented new functional. Collaborated with small team to define bugs, fix them and add new features.

Technologies: Ruby, Ruby on Rails, PostgreSQL, React.js, Redux, Swagger, Basecamp

Ruby on Rails Developer (volunteer) January 2024 - February 2024
Open/Tech department in SoftServe Inc.

Moving a project from webpack to importmap. Connecting Tailwind instead of Bootstrap. Redesigning the volunteers page (the new design for displaying volunteers was created in Figma).

Technologies: Ruby, Ruby on Rails, Figma, Stimulus, Turbo, Importmap, Tailwind, Workday, Teams

Ruby on Rails Developer February 2021 - July 2024
SoftServe Inc.

Developing and maintaining web applications using Ruby, Ruby on Rails, and React. Implemented RESTful APIs and integrated with PostgreSQL, MySQL databases. Collaborated with stakeholders to define project requirements and timelines.

Technologies: Ruby, Ruby on Rails, React.js, EmberJS, HAML, SLIM, Bootstrap, Tailwind, Docker, Swagger, Jenkins, Heroku, Workday, Jira, Smartsheet, Confluence, Webex, Circle CI, GitLab CI/CD, Travis CI, Kafka, GRPC, ElasticSearch, Rollbar, PaperTrail, ActiveAdmin, Administrate, dotenv, direnv, guard, pry, rails_best_practices, Snyk, Aqua, AppScan Cloud, HackerOne, Rapid7, MS Defender VM, clearance, paperclip

Ruby on Rails Internship September 2020 - December 2020
SoftServe IT-academy

Designed and developed web applications using Ruby, Ruby on Rails and React. Worked closely with backend and frontend developers to integrate all functions and components for Home Owners Association application. Implemented responsive designs and business logic.

Technologies: SCSS, Ruby, Ruby on Rails, PostgreSQL, ElasticSearch, Travis CI, Circle CI, Heroku, Slim, Google Maps API, Rspec, Pry, JQuery

Languages

Ukrainian — Native
English — Intermediate (B1+)

Education

Master's degree, Software Quality and Security
Vasyl Stefanyk Carpathian National University, 2020 – 2021

Bachelor's degree, Software Engineer
Vasyl Stefanyk Carpathian National University, 2016 – 2020

Additional education and certifications

Development, design and architecture of modern software systems based on the object-oriented language Ruby
SoftServe IT Academy, Issued December 2020

Intermediate English level
Ukrainian-Canadian Business Center SBEDIF, Issued March 2021
